ANAS SALEEM

AI & Software Engineer

Lahore, Punjab, Pakistan | +92 307 2936880 | anssaleem504@gmail.com | linkedin.com/in/anassalsaleem2004

PROFESSIONAL SUMMARY

AI & Software Engineer and full stack developer with hands-on experience in machine learning, computer vision, NLP, and agentic AI systems. Builds and ships end-to-end products: AI pipelines, backends (Django, FastAPI), frontends, and cloud deployments. Experienced in real-time voice agents and SIP telephony using LiveKit and Twilio, and in leading projects while collaborating with backend, frontend, and mobile teams.

SKILLS

Agentic AI & LLM Frameworks	CrewAI, LangChain, LangGraph, LlamaIndex, Hugging Face, Groq, RAG and Agentic RAG, Chatbots, LLM Chains, LLM Fine-tuning
AI & Machine Learning	TensorFlow, Keras, Scikit-Learn, Computer Vision (YOLOv11, OpenCV), NLP, CNN/RNN
Voice & Telephony	LiveKit, Twilio, SIP, Real-Time Voice Agents
Backend & Full Stack	Python, Django, FastAPI, REST APIs, Full Stack Development
Databases	PostgreSQL, MongoDB
DevOps & Deployment	AWS EC2, Nginx, CI/CD, Docker, GitHub
Data Analysis	Pandas, NumPy, EDA, Feature Engineering, Matplotlib, Seaborn, Plotly

WORK EXPERIENCE

Associate AI & ML Engineer
July 2025 – Present

Nexterse, Lahore

- Work on AI projects including a fashion recommendation model, real-time voice agents, Agentic RAG systems, and computer vision solutions.
- Lead projects and collaborate with backend, frontend, and mobile app developers.
- Team lead on Xorris, a multi-tenant voice calling platform.
- Deploy AI applications, backends, and frontends on AWS EC2 instances with Nginx as reverse proxy.
- Set up CI/CD pipelines and Docker-based deployments; manage production data on PostgreSQL and MongoDB.

Machine Learning & AI Engineer
February 2025 – July 2025

AugAI

- Worked on AI and ML projects, applying advanced models to real-world problems.
- Trained and optimized ML models.

Machine Learning Intern
November 2024 – January 2025

AugAI

- Developed AI-powered solutions and contributed to data processing, model evaluation, and deployment.
- Applied ML models to real-world problems with a focus on performance optimization.

PROJECTS

Xorris: Multi-Tenant Voice Calling Platform | *Team Lead*

A voice calling platform integrating LiveKit and Twilio for SIP-based calling and AI voice agents. Led the team and coordinated work across backend, frontend, and integrations.

- **Human-to-human call flows:** Built the flows that let users place and receive calls directly with other people on the platform, alongside the AI voice agent calls.
- **Number purchasing flow:** Built the self-service flow where tenants search for and buy phone numbers through Twilio's APIs, then use them for inbound and outbound calling.
- **AI voice agent:** Set up a shared LiveKit agent that identifies the calling user at runtime and loads their persona.
- **Browser-to-phone calling:** Implemented calling from the browser to phone numbers, with call recording.
- **CRM module:** Built leads, contacts, and potentials, with calls ranked by dispositions and tags.
- **Phone numbers dashboard:** Built the numbers management table UI, including a number health view.

Joblynk | *AI & Software Engineer*
Worked on the AI side of Joblynk, a job and hiring platform, and built three core parts of it:

- **Interview system:** Worked on the interview system, the part of the platform that runs candidate interviews.
- **Joblynk chatbots:** Built the chatbots, conversational assistants for the platform's users.
- **Job posting agents:** Built AI agents that help create and manage job postings.

AI Developer | *Backend & AI Engineer*
An AI-powered code generation tool that creates unique frontend designs with code and a live preview. Built the backend and the AI pipeline behind it.

AI Designer | *Backend & AI Engineer*
An AI platform that generates Figma-like software designs, logos, images, brand visuals, and social media posts. Built the backend and the AI generation pipeline.

EDUCATION

BS Computer Science, University of Education, Lahore *2023 – 2027*

Intermediate Pre-Engineering, Aspire College *2020 – 2022*
